A BREAKTHROUGH IN LASER TECHNOLOGY
A BREAKTHROUGH IN AFFORDABILITY

OVERVIEW

AMD LASERS™, LLC

Picasso represents a dramatic breakthrough in laser technology that has led to a remarkable breakthrough in price. With an unprecedented level of affordability, Picasso provides dentists with the flexibility to integrate laser technology in every operatory and the freedom to create a more dynamic practice.
Picasso is the first dental laser to combine ease of use, "nuevo" styling and affordable pricing. New laser technology developed by AMD LASERS™, LLC now allows all dentists worldwide to incorporate this remarkable laser technology into every operatory within their practice. Picasso gives each dentist the right "brush" to become the master artist.

"Picasso is easy to use and the only way to give my patients the beautiful smiles they want... Bring me Picasso!"
Dr. Jesus Ochoa
CEO of "Multident" Dental Clinics
